

Summary

Data enthusiast with a Master's degree in Data Science and 2 years of experience. Advanced knowledge in machine learning and statistical analysis. Proven track record of designing and implementing data-driven solutions for business improvement.

Skills

Python, SQL, Machine Learning, Tableau, R, Data Visualization, Statistical Analysis, Data Mining

Experience

IBM New York, USA
Junior Data Scientist 2018 - 2019

Worked in IBM's data science team focusing on implementation of machine learning models.

- Developed and implemented a machine learning model that improved efficiency by 20%
- Managed large datasets using Python and SQL, streamlining data collection by 30%
- Collaborated with the team to designed new statistical analysis models

Google California, USA
Assistant Data Analyst 2019 - 2020

Assisted in analyzing large sets of data and providing insights to the marketing team.

- Assisted in pulling and analyzing large datasets, cutting operation time by 15%
- Contributed to marketing strategy by providing data-driven insights, boosting leads by 10%
- Managed database using SQL, which ensured data integrity and availability

Microsoft Washington, USA
Business Intelligence Analyst 2020 - 2021

Analyzed data to draw business-relevant conclusions and in data visualization techniques

- Helped to identify business trends utilizing real data, compile analysis reports that were presented to the team and the CEO
- Implemented a new data analysis tool which improved the data processing speed by 25%
- Worked on the creation of a new BI dashboard that increased data accuracy by 15%

Education

University of Southern California California, USA
BSc in Computer Science 2010 - 2014

New York University New York, USA
MSc in Data Science 2015 - 2018

Strengths

- | | | |
|--|--|--|
|  Analytical
Successfully analyzed large datasets to drive business strategies at Google |  Problem-solver
Tackled data discrepancies at IBM, ensuring data accuracy and integrity |  Collaborative
worked seamlessly with team members to implement data solutions at Microsoft |
|--|--|--|

Interests

Artificial Intelligence

Always fascinated by the possibilities of AI and machine learning

Mountain Biking

Regularly participate in local biking events and adventures
